

DIANE HENRIKS

Know Who Wears the Genes in Your Family

SUMMARY

Diane Henriks is a professional genealogist, investigator, speaker, and author, with a specialty in finding descendants in family trees and brick wall research. She has worked closely with private investigators to find living people, while also assisting in background investigations, in both civil and criminal cases. She is a proud member of the Association of Professional Genealogists, the Genealogical Speakers Guild, and the Southern California Genealogical Society. What started out as a small hobby over a decade ago, when a hand drawn family tree chart was given to her by her father, has since become a great obsession! She now helps others journey through their family histories and/or locate missing pieces through Know Who Wears the Genes in Your Family. Family history isn't just genealogy; it's about connecting your past, present and future, to give you a sense of who you are.

CURRENT PRESENTATIONS/LECTURES OFFERED

- **Finding Descendants in your Family Tree**-This presentation/lecture shows you the process of fanning out to find descendants and living people in your family tree, which can also help you break down some of those genealogy brick walls
- **Publishing your Family History**- History is a Social Science and every person is a part of it. As we learn about our family members and their experiences, we should be sharing their stories with others. Join me as we learn how to organize and disseminate our family's stories to family members and the public, to preserve for future generations!
